

A Prophetic Dream for Warning

I was in a time of seeking the Lord intensely for my life. I was enjoying a time of great fellowship with the Lord Christ, Jesus. At the time of fasting and prayer He gave me great insight and joy. I cannot begin to mention the embrace of Love never thought possible for a man like me.

It was during this time that this dream came to me: It began with something very familiar to me which was a motorcycle race. While trying to start the race the man in charge had to rebuke one driver who was not paying attention and kept jumping the line and had to be moved back into place. Once the race started this same driver was careless and was endangering others in the race. While observing intently I watched this reckless driver enter a bend and hit a wall and at that the head came off that racer.

I said "Oh Lord" the head came off! Just then two large arms came down from the Heavens and picked up the head and put it in front of my face. Inside the helmet was the face of a woman who was moving her mouth and trying to form words but nothing was coming out.

Waking at this point, as you can imagine, I started to pray asking the Lord for the meaning of this dream. He said she could not speak because she has no wind and that our race is against time not each other.

As I continued to meditate on this the Lord showed me we must not get ahead of Him as the driver jumping her place without His direction. While the race progresses we can not endanger others in the race or we may lose our head who is Christ. Also she had no wind because she lost the Holy Spirit as the reason she could not speak. I took it because I saw the face of a woman that the racers represented churches. However, I believe this can also represent each of us as individuals.

Our job as the church of God, the body of Christ, should be moving as the head directs. No one's body moves in a different direction from their head. This should be easy to understand but in these times of evil it is easy to get confused. We see murder, terror, persecution, beheadings, and people just becoming more vile each day thinking they can do these things in the name of God also many think they will never have to answer. This is not my God but He keeps telling me to teach Christ's Love, redemption and forgiving those who hurt you.

Did I mention time is short, this is why the Lord said that our race is not against each other but against time! I am amazed that people think they can

ignore the calling of the Lord to accept redemption. I have seen the violent death of at least four people in my life. One was a girl run down by a car and I cannot describe the scene but the smell of blood made me realize her life had slipped away. To this day I wonder where her soul is and that of others who suffer an untimely death. We have no guarantee of the years of this life, which is so fragile, only eternity if we accept Jesus as Lord and receive His gift of salvation. In the present condition of the world taking up enough humility to do this would be considered to be an intelligent choice of wisdom. Remember judgement will come and vengeance is His!
