

The Elimination of Heroes

I have been watching the systematic elimination of all that is good and courageous in our Nation. We are not to remember men or women of renowned.

Our society has no room for heroes. This is mainly the fault of the leadership whose only concern is control of the people. They do not want anyone to think that they can attain to a much greater life. If we had heroes as examples we would throw off the leadership that wants to control our minds so that we would follow them blindly to our own demise.

This is why they want to eliminate any reference to our Lord Jesus Christ especially in our schools. They follow the way of the destroyer Satan. The Bible says he comes to kill, steal, and destroy plus Satan wants abortion to flourish. In the Bible it was called Baal worship!

When growing up my heroes were men like Sgt. York and Audie Murphy they were ready to give their lives for what they believed. Not all heroes are perfect people but they stood above others because they cared about others more than their own lives.

Sgt. York could have made a lot of money through endorsements but he turned them down because he would have to lie and say he used their product. His Christian values would not let him do it.

Audie Murphy, the most decorated soldier of WWII, did make a career in movies but came to a tragic end. When asked why he did such selfless acts of bravery receiving the congressional medal among many others, his answer was they were killing his friends.

A Little known fact about Audie is that his father abandon the family and when his mother died he took care of his 11 siblings as a young boy working in the cotton fields and hunting small game for them to eat. He lied about his age so he could join the military. All his medals came before age 20. It would pay to research his story, but like I said, there are no perfect heroes. However there is one!

The One of Whom I speak is our Lord Jesus Christ. He was willing to die a most painful and gruesome death to redeem our soul. He embraced me with His Love and did it willingly because Satan was killing His friends and robbing

them of eternal life. HE IS A TRUE HERO! When He returns he will have no medals but He will have many crowns. We can look to Him as our Hero and feel no shame.

The question is, are we willing to die for Him? Will we march at His side and proclaim Him as our HERO?
