

Look how benevolent  
we care enough to import  
twenty million voters

Make sure they don't  
get any idea about learning  
the constitution. This way we  
keep them dependent for  
their vote. Then we make up  
all the missing votes we  
need to stay in office.

60 million  
Aborted taxpayers

60 million  
Aborted Consumers

60 million  
Aborted Voters

The high cost of the  
government's benevolence  
Leaders without conscience!
