

# The Lord's Security for the Ages

by Reverend Callender

His is trustworthy and more secure than the earth beneath our feet  
The riches of His love are more secure than the gold in any bank

The life He gives is more real than the world around us  
The joy He offers allows us to stand in the face of adversity

He mends the soul of the brokenhearted with compassion  
In their sorrow He will not overlook any that call on His name

He knows and has felt every pain that His faithful have ever known  
He shows that there is glory even in our humble state

Also those with a broken body can climb mountains with the Lord  
And we will not be ashamed as we wait for the glory of His coming!
