

For the life of me I cannot figure out how these idiots in congress think they are beyond the reach of the Lord He says let your yes mean yes and your no mean no. It don't matter if you mention His Name You are still accountable for every word! Watch your power crumble

When will we choose the Lord? How long must we suffer? Is repentance so hard? How can we choose good leadership if we don't understand what good leadership does? It all starts with seeking the Wisdom of the Lord. Our time is short.
